WORK EXPERIENCE

PC4MATIC - Abuja, Nigeria 2020 - 2021
Front End Developer

- Developed responsive and user-friendly web applications using HTML, CSS, JavaScript, and React, while also designing interfaces for web and mobile with design software.
- Integrated APIs to enhance features and data flow, and implemented testing protocols to ensure cross-browser/device functionality and maintain code quality.
- Collaborated with UX designers on visual styling to enhance user experience and assisted in optimizing application performance and load times.

PC4MATIC - Abuja, Nigeria 2021 - 2022
Frontend Developer

- Developed mobile applications using Flutter and Dart for cross-platform functionality.
- Integrated RESTful APIs to ensure smooth data communication between front-end and back-end systems.

PC4MATIC - Abuja, Nigeria 2022 - PRESENT
Full Stack Software Developer

- Developed scalable, user-friendly web applications using JavaScript and React, with a focus on accessibility and usability principles.
- Built and implemented RESTful APIs and services using Laravel to facilitate seamless data exchange for web and mobile applications, and integrated third-party services for enhanced functionality.
